There are regulations in place that your waterproofing will need to comply with, as set out by the Building Code of Australia and Australian Standards (AS 3740-1994). In short, they require that: In the shower, the whole floor must be waterproof and the shower walls should be waterproofed up to 1800mm. The walls need to be waterproofed up to 150mm.

Bathroom waterproofing | BUILD

Waterproofing is an important part of any bathroom renovation. This is covered by Australian Standard AS 3940-1994, which was updated in 2004, and is the same across all states. The basic

Sparkling wine is a wine with significant levels of carbon dioxide in it, making it fizzy. While the phrase commonly refers to champagne, EU countries legally reserve that term for products exclusively produced in the Champagne region of France.

Sparkling wine is usually either white or rosé, but there are examples of red sparkling wines such as the Italian Brachetto, Bonarda and Lambrusco .

Triboard is a 3-layered panel with a wood strand core sandwiched between an MDF outer "skin". The result is a clean-lined panel that has high resilience and impact resistance and greater stiffness than other similar products. The dimensionally stable core provides superb load bearing and screw holding, and the MDF surfaces give a smooth finish...
