Axe-heads and identity: an investigation into the roles of ...

The aim of this study is to understand the roles that imported stone axe-heads played in identity formation at the onset of, and throughout, the Neolithic in Britain. 'Imported', within this context, refers to any axe-head which has come from continental Europe, including Scandinavia.

Axe Boy | Identity V Wiki | Fandom

In the metaphysics of identity, the ship of Theseus is a thought experiment that raises the question of whether an object that has had all of its components replaced remains fundamentally the same object.The concept is one of the oldest in Western philosophy, having been discussed by the likes of Heraclitus and Plato by ca. 500–400 BC.

Axe-heads and identity : an investigation into the roles ...

The work presented here rests upon the argument that these 'imported' axe-heads of flint and stone made their way into what is today called Britain as objects of considerable significance. Specifically, they were items of high symbolic value that played a crucial role in fostering the particular ways of thinking about, and addressing, social identity that are associated with the Neolithic.

Axe-Heads and Identity: An Investigation Into the Roles of ...

One interesting detail could easily be the missing link between the Battle Axe Culture and the later identity of the Nordic Bronze age: the battle axe symbol. Its distinct shape, and its obvious ritual use, could mean that the axe head was a symbol of a deity, much like Thor , whose chief symbol was a hammer head or sometimes even an axe head, or the Slavic deity Perun , or even the Finnic god ...
