### *Mathematical Programming Journal*

Mathematical Programming publishes original articles dealing with every aspect of mathematical optimization; that is, everything of direct or indirect use concerning the problem of optimizing a function of many variables, often subject to a set of constraints. This involves theoretical and computational issues as well as application studies.

Mathematical Programming publishes original articles dealing with every aspect of mathematical optimization; that is, everything of direct or indirect use concerning the problem of optimizing a function of many variables, often subject to a set of constraints. This involves theoretical and computational issues as well as application studies.

### *Mathematical Programming - All Volumes & Issues - Springer*

Mathematical Programming is a peer-reviewed scientific journal that was established in 1971 and is published by Springer Science+Business Media. It is the official journal of the Mathematical Optimization Society and consists of two series: A and B .

### *Mathematical Programming Journal,*

Mathematical Programming consists of two series. Series A publishes original research articles, expositions and surveys, and reports on computational experimentation and new or innovative practical applications as well as short communications dealing with the above.
