PIPER ARROW SERIES Aircraft For Sale—Used &amp; New 1—24

Piper still lists the Turbo Arrow as a current production airplane, incidentally. So, yes, it's true the Turbo Arrow was flawed, a result largely of cost-cutting. But as time seems to heal all wounds, it is working its magic on the Turbo Arrow. Properly modified and carefully maintained, the Turbo can be a highly desirable transportation tool.

Piper Cherokee Turbo Arrow III

1977 Piper Turbo Arrow III, in very nice condition. Plane has been upgraded regularly, GTN 650 with moving map, nice panel, aircraft is always hangared. Only two pilots last 5 years and one is moving to another state, must sell aircraft.

Die Piper Arrow (auch PA-28) ist ein einmotoriges, vierstziges Leichtflugzeug des US-Herstellers Piper. Die Zahl nach der Typenbezeichnung markiert im Allgemeinen die Leistung des Flugmotors in PS. Die Versionen II und IV verfügen weiterhin über ein Einziehfahrwerk und Constant Speed-Propeller.

Piper Cherokee Arrow III Turbo for FSX—Fly Away Simulation

In 1977, the Arrow got the newest Piper wing, making it the Arrow III. In 1979, Piper introduced the Arrow IV and Turbo Arrow IV designators. Piper claimed, the long popular, high-performance Arrow benefited from the new tail with advanced handling characteristics and reduced cabin noise.

Piper PA-28 —Wikipedia

The Piper PA28 series is a family of light aircraft for flight training, air taxi and personal use built by Piper Aircraft. All members of the PA28 family are unpressurized, single-engine piston-powered airplanes with tricycle landing gear. The Piper Arrow is one of the current models, built since 1967 and developed from the four-seat Cherokee.
