## Pro Git | Scott Chacon | Apress

Download Pro Git for free. This is the project for the Pro Git book, written by Scott Chacon and published by Apress. Here you can find the full content of the book.

## Pro Git

Written by an expert in the field, "Pro Git" is a book with a misleading title, but in a good sense. It's useful not only to pro-level users of Git but also to newbies. The first four chapters act as introduction/tutorial for a lower level of using Git. This part is especially useful for someone coming from different systems, like Subversion.

## Pro Git, Second Edition - FreeTechBooks

Pro Git Book has 24 repositories available. Follow their code on GitHub.

## Pro Git

Git is a free and open source distributed version control system designed to handle everything from small to very large projects with speed and efficiency.. Git is easy to learn and has a tiny footprint with lightning fast performance.It outclasses SCM tools like Subversion, CVS, Perforce, and ClearCase with features like cheap local branching, convenient staging areas, and multiple workflows.

## Pro Git [electronic resource] : Chacon, Scott, author ...

Pro Git; Introduction Getting Started ... Git Basics. So, what is Git in a nutshell? This is an important section to absorb, because if you understand what Git is and the fundamentals of how it works, then using Git effectively will probably be much easier for you.
