A typical business also takes a long time to produce a return on your investment. By contrast, a small-scale poultry business has a relatively low start-up cost and rapid returns. You can begin with as little as R20 000 and get a 100% return on your capital investment within six months. READ Free-range eggs add value for commercial producer

Small-Scale Egg Handling - 1 | The Poultry Site

A small scale poultry farm being run behind your house may require a capital of between \$500 - \$1,500. A medium scale poultry farm may require \$2,000 - \$5,000 and a large scale poultry farm may require a start-up capital of \$10,000 and above. Like I stated earlier, scale is directly proportional to capital.
