Strategic planning always includes analysis, but it may or may not involve serious foresight on the way to developing a plan, or taking an action. A consideration of possible futures (alternative futures) and of probable futures (forecasts, predictions) is important to developing a preferred future (plan), even the simple mental plans made prior to taking an action.

H. Igor Ansoff was the prominent reference in the corporate strategy field, especially during the 1960s and 1970s. His bestseller, Corporate Strategy, was the first to give a conceptual framework and a tool box to top managers, consultants and scholars. Recognized as the real pioneer of the field, he was seen by Henry Mintzberg as also the leader of the strategic planning school.
